Jan 2026 – Jun 2026

- Developed and maintained full-stack web applications using React, TypeScript, Tailwind CSS, FastAPI, and PostgreSQL.
- Built a complete Blog System with admin panel, JWT authentication, and CRUD operations via REST API.
- Created a To-Do List application with full frontend–backend integration and persistent database storage.
- Contributed to the Telusko Track project using the same full-stack technology stack.
- Collaborated on UI/UX design for multiple client-facing projects including landing pages and admin dashboards.

Web Developer (Summer Internship) | [SHDPixel](#)

Jun 2025 – Jul 2025

- Completed a 1-month summer internship focused on frontend web development and UI component building.
- Gained practical experience with HTML, CSS, JavaScript, and React through real client projects.
- Assisted in designing and developing responsive web pages and layouts.

PROJECTS

Blog System with Admin Panel — *React · TypeScript · Tailwind CSS · FastAPI · PostgreSQL · JWT · REST API*

- Built a full-featured blog platform with user authentication, admin panel, and complete CRUD operations.
- Implemented JWT-based authentication for secure login and session management.
- Designed RESTful API endpoints with FastAPI and connected them to a PostgreSQL database.

To-Do List App — *React · TypeScript · Tailwind CSS · FastAPI · PostgreSQL · REST API*

- Developed an interactive task management app with full frontend–backend connectivity.
- Implemented real-time task creation, update, and deletion with a clean responsive UI using Tailwind CSS.

Telusko Track — *React · TypeScript · Tailwind CSS · FastAPI · PostgreSQL*

- Built a tracking/progress application with full-stack integration and CRUD functionality.
- Applied Framer Motion animations to enhance user experience and interface interactivity.
